**7.1.3 Describe the facilities of the Institution for the management of the following types of degradable and non-degradable waste.**

- **Solid waste management:**

The college has a sprawling green campus and gives top priority to keep the campus clean and eco- friendly. The faculties and students are regularly advised to reduce waste. Sincere students put waste separate bins kept at different places on the college campus. The solid waste is regularly collected by the garbage town council. To minimize the problems of waste disposal separate dust bins are kept. A dust bin is kept in every room to collect the dust waste is collected twice a day. Garden waste, kitchen wastes from the college canteen and other wet waste are collected from different areas of the campus. Dry waste mainly leaf litter is allowed to decompose systematically over a period.

An agreement is made between the institution and CMC,Karwar for disposal of dry non biodegradable waste which is picked twice a week from the campus.

Ref.No/Kwt/DCC/Cert/2019-2020

Date: 16-09-2019.

The Municipal Commissioner,  
CMC,  
Karwar.

**Subject: Regarding garbage collection from the college campus**  
(non-biodegradable waste)

Respected Sir,

With due respect, I want to draw the attention of your office of CMC, Karwar for lifting the garbage which will be collected in the college campus atleast twice in a week, particularly the non-biodegradable waste.

I kindly request you to look into the matter and make some necessary arrangements.

Thanking you,

Yours faithfully

- **Liquid waste management:** The liquid wastes of the institute are discarded as per the norms of CMC, KARWAR. The institute has drainage system which is regularly maintained. Efforts are also made to ensure that staff and students use water sparingly in the institute.
- **E –waste management :** The non- working laboratory equipment, computers, monitors, printers and batteries etc. as scrap materials. Those are sold on the systematic basis following the rules of purchase committee. All the sold materials are then ruled out from dead stock register for future records for safe recycling.

Regular maintenance of drinking water tap, RO water filter, and drainage and water pipe line is kept by the college support staff.

Both the staff and students have been recognised for their unparallel efforts and this has made waste management an effortless act at our institute.
